

ROVENSO SA
Z.I du Vivier 22
1690 Villaz-St-Pierre
Switzerland
rovenso.com

ROVENSO is an EPFL startup, developing agile robots for security and safety monitoring of industrial sites.

We are a team of 5 people and we are looking for folks that are curious, not afraid of making mistakes, autonomous and collaborative, able to work with multiple priorities in a fast-paced, multi-cultural, multi-disciplinary environment

Every day, you will have the opportunity to innovate, experiment, share your ideas and contribute to solving the most challenging real-world robotics problems.

So join us as

Robotics Navigation Engineer

Starting date: As soon as possible

Your role:

- Contribute to the improvement and extension of the current software stack
- Implement and improve third-party solutions
- Design custom algorithms for localization, mapping and navigation
- Perform on-robot testing and benchmarking of the implemented solutions
- Debug, maintain, and document

Your required skills:

- Extensive C++ programming skills
- Practical experience of SLAM and navigation algorithms
- Knowledge of robotics sensors (LiDAR, IMU, 3D camera)
- Familiarity with hardware selection and testing
